

## GOVERNANCE &

## FINANCE TRAINING

### For experienced directors

---

Join our interactive one-day course presented by Delna Dugdale and/or Debbie Organ and sharpen your skills in key areas of governance and finance.

With over 30 years of combined training experience, substantial leadership and management experience, as well as both holding Master of Business Administration, Delna and Debbie offer invaluable governance and finance knowledge. Debbie also brings her practical experience from various Chairperson and Board positions held in the last 10 years.

# AN INTERACTIVE ONE-DAY COURSE

This interactive one-day course is packed with strategies and tools that you can use to increase your effectiveness in the boardroom at a practical level.

You will apply the theories and frameworks from your own experience, or previous training, to your own organisation.

For governance, this includes activities like, analysing the effectiveness of your board composition against strategic objectives, assessing your board's compliance/governance obligations and tips on how to be an effective influencer at board meetings.

For the finance component, you will revisit how to interpret financial statements and key performance indicators and then we will apply those same principals to your own financial statements from your annual report. This is your chance to interpret and assess your organisation's financial position and ensure you're meeting your director financial reporting obligations.

"I have never felt so much a part of a workshop until yours.  
I was interested from the start to end and came back to work energised!"

CEO, District Health Services

"Debbie was incredible in her presenting style, examples and  
personal touches."

Director, The Demo Club
